

SIRION Biotech GmbH is Europe's leading commercial supplier of viral vector technologies. As part of Perkin Elmer we are offering the most comprehensive portfolio of custom viral vectors for the Pharmaceutical and Biotech industries. The company is headquartered in the Munich area/Germany with representations in France and in the United States.

We are searching as soon as possible for a

Project Manager (m/w/d), rAAV vector technology

In this role you will support the Head of Alliance and Program Management in managing Sirion's corporate collaborations dedicated to the development of AAV-based gene therapies. As a team member you will be mainly responsible for driving collaborative project management and support successful execution of project tasks and meeting relevant project objectives. The position will be mainly Munich-based. Full- or part time option.

Your responsibilities

- Support of Alliance and Program Management in managing corporate-academic partnerships
- Coordination of tasks and activities assigned to alliance partners and CROs
- Prepare, communicate and implement project timelines, milestones & deliverables
- Project monitoring & risk mitigation
- Facilitate meetings, orchestrate & document communication
- Ensure and advance project support by fostering collaboration and effective communication among project teams and partners

Your profil

- PhD (+5 years professional experience) in Biology, Biochemistry, Virology, or related field
- Broad understanding of G&CT and viral vector technologies is a plus
- Project management experience including risk management & project reporting
- Stakeholder management skills
- Understanding of corporate/industrial processes
- Interpersonal and communication skills
- Goal-oriented attitude and analytical mindset

As an established and thriving Biotech enterprise we are offering an exciting professional perspective at the forefront of translational science and commercialization of viral vector technologies. If you are interested in joining a cooperative, dynamic, and innovative working environment, please submit your application (German or English), stating the date of earliest availability, to hr@sirion-biotech.de.
